Hi Natasha,

Yes, if Brandon and Mike could provide their own transportation to the Area Command at the LaPlata Fairgrounds and the mine site in Silverton, that would be great.

I can share general health and safety information with them when I see them tomorrow morning and as mentioned, they will participate in a health and safety briefings at the site.

Regards,

Patti

Hi Patti,

This schedule will be just fine. I wanted to make sure that Brandon Ashley and Mike Andrews will be driving from LaPlata County Fair Grounds to the Benson Business Center via their own transportation. Also can you confirm that the Benson Business Center address is the below address:

1208 Greene Street

Silverton, CO 81433

Additionally, what health and safety information can you share via e-mail?

Thanks,

Natasha John

Subject: Thursday, August 20th Area Command and Gold King Mine site visit

Good Afternoon Natasha,

The Area Command in Durango looks forward to meeting with Brandon Ashley and Mike Andrews tomorrow at the LaPlata County Fair Grounds (2500 Main Ave) at 10:30 am for a briefing of the response and then a visit to the Gold King Mine following that. There are signs for the Incident Command Post parking, once they turn into the Fairgrounds area. I will be their point of contact at the Area Command and Chris Wardell will be the point of contact for the Mine visit. I am suggesting the following agenda for Brandon and Mike's schedule for tomorrow.

Thursday, August 20, 2015:

10:30-11:30 am: Briefing at the Area Command

11:30 am-12:30 pm: Travel to Gold King Mine, Silverton, CO

12:30 pm: Meet Chris Wardell at the Benson Business Center, Silverton, CO

Benson Business Center is located on Greene St. in Silverton, its on the right hand side of the road.

12:30-2:30 pm: Visit Gold King Mine site features and observation area

2:30-3:30 pm: Travel back to Durango

Please know that once they arrive at the mine site, there will be a health and safety briefing (10 mins). They may have to wear personal protective equipment. I can share more of this information with them when I see them tomorrow morning. Also, weather conditions change quickly there, so they should be dressed for that. The mine site is at about 12,000 ft.

Please know that I have been in touch with my contact there and 1.5 hours at the mine site is not a lot of time there. I am looking for feedback on my suggested

agenda as I am flexible to revising it. Please let me know.

Please contact me with any questions,

Kind regards,

Patti Tyler
